Town of Natick - Financial Management Principles

PART 1: GENERAL

To protect the town's financial stability, to ensure the availability of adequate financial resources in times of emergency, to capitalize on high bond ratings (and thus low interest rates), it is essential that policies regarding the town's financial management be adopted and adhered to in the preparation and implementation of the town's operating and capital budgets.

PART 2: PRINCIPLES

Reserves: Use and Recommended Balances

- Reserves and one-time revenues should be used only for capital or other non-recurring expenses, except as noted below.
- The Town will strive to maintain unappropriated free cash at a minimum of 1% of revenues, and unappropriated free cash should never be less than ½ % of revenues.
- The Town will maintain a diversified series of permanent reserves in the form of stabilization funds. These stabilization funds will consist of three types:
 - 1. A General Stabilization Fund should be maintained for the purpose of unforeseen and catastrophic emergencies. It should, at a minimum, be at a level equal to 2% of revenues, with the target being 5% of revenues.
 - O 2. An Operational Stabilization Fund should be maintained for the purpose of augmenting operations in case of sustained economic downturn and associated loss of revenues in support of operations. Sustained economic downturn will be any situation whereby State Aid and/or local receipts are significantly reduced from one-year to the next. ("Significantly" being defined as more than 5% of the total for the respective revenue category.) The target amount of money in the Operational Stabilization Fund should be sufficient to sustain operations through a three-year period of economic downturn. This shall be equivalent to 10% of State Aid Revenues and 5% of Estimated Receipts cumulative for a three-year period.
 - o 3. A Capital Stabilization Fund should be maintained for the purpose of funding any capital related project, or pieces of capital equipment, or debt-service payment related thereto. It shall be funded through local option taxes
- Existing reserves should be enhanced whenever possible.

Capital Planning and Budgeting

- A 5-Year capital plan should be developed and updated annually, per Section 5-7 of the Town's Charter.
- Whenever practical, capital funding should be done in the fall after free cash has been certified.
- A minimum of 6-7% of net general fund revenues (i.e within –levy) should be set aside annually to fund capital needs, inclusive of cash appropriations and the subject year's debt budget. Not included in this target are those capital improvements and equipment purchases funded through Debt Exclusions, Enterprise Funds, Intergovernmental Funds, Grants Mitigation Funds, Chapter 90 Funds, etc. This goal should be revisited regularly to ensure that the Town is investing adequately in its capital needs.

Debt Issuance and Management

- Capital projects should be carefully scheduled and monitored to minimize borrowing costs while optimizing investment opportunities.
- Large capital project, generally costing over \$1 million and having a useful life of ten years or more, are typically funded with debt to spread the cost out over many years. In order to prevent such projects from absorbing significant capacity within the levy, careful consideration should always be given to excluding these projects from the limits of Proposition 2 ½ through debt exclusion question to the voters.
- Whenever practical, the issuance of expensive short-term Bond Anticipation Notes should be avoided.

lanuary 2 2013

Town of Natick - Financial Management Principles

Financial Planning and Forecasting

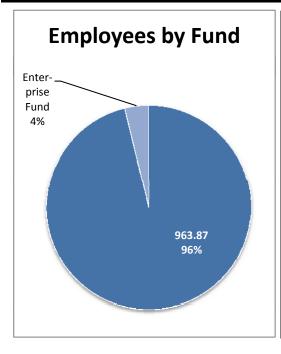

- Revenue estimates should be realistic, yet conservative, to minimize the potential of shortfalls in the subsequent year's operating budgets and corresponding impacts on free cash.
- Three year revenue and expenditure forecasts should be updated annually.

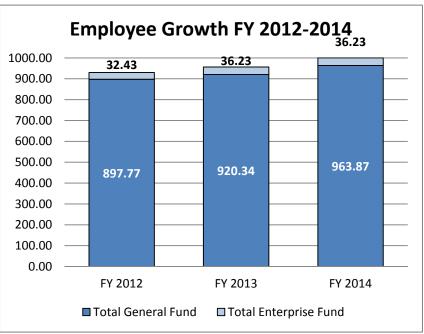

Cash Management

- Balances in prior Town Meeting funding articles shall be reviewed annually and excess balances shall be closed out to free cash.
- Fees and charges will be reviewed regularly to ensure that where appropriate they cover direct and indirect costs associated with the related service.

Introduction

This series of indicators are designed to achieve three goals:

- a) Evaluate the fiscal health of the Town of Natick through a series of financial indicators and comparative benchmarks, where appropriate;
- b) Present a three-year projection of Revenues & Expenditures; and
- c) Outline the FY 2014 Budget Process & Issues

This material is intended to provide policymakers with an informed snapshot of where Natick stands financially heading into the FY 2014 Budget Process. It is not the purpose of this exercise to propose a budget or recommended level of services; rather it is to evaluate Natick via a series of benchmarks, including measures such as revenues and expenditures per household, benefit costs, funded and unfunded liabilities incurred by the Town, debt service, reserve position and population.

Using a series of recognized metrics from professional organizations, including the International City/County Management Association, (ICMA), the Government Finance Officer's Association (GFOA), Standard & Poor's, as well as data from the Town of Natick, Mass. Department of Revenue, the Mass. Department of Education, and the U.S. Census Bureau, Town staff has compiled 12 indicators which can be used to evaluate the Town's fiscal health. In evaluating Natick's financial condition, staff has found that the Town has both fiscal strengths and weaknesses. In particular,

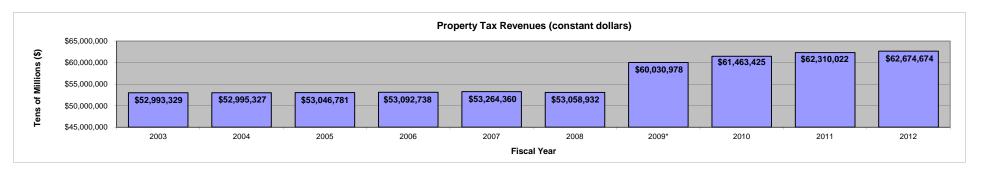

- •
- Natick has favorable property tax collections, personnel costs, debt service levels (both as a percentage of operating revenues and per capita) and reserve levels.
 Natick has marginal and uncertain levels of State Aid, revenues related to economic growth, benefit expenditures, amounts of capital investment, reserve levels, and reliance upon one-time revenues.
- Natick has unfavorable expenditures per household and pension liabilities

These measures indicate that, overall, the Town has performed at a high level worthy of its AAA Credit Rating (from Standard & Poor's), but that continued maintenance of that rating relies upon maintaining favorable trends, addressing unfavorable trends, reducing future liabilities and continuing to work towards both sustainable services and cost-effective service delivery.

These indicators, and the projections and appendices which are attached to them, will be updated annually to provide the community, particularly those involved with the budget process, the most useful information available when making budget decisions. This effort is a continuation of and consistent with several other initiatives including the development of the Natick 360 Strategic Plan, development of financial management principles, improvements to the capital improvement planning and budgeting processes, improvements to the water and sewer rate setting process, ongoing revenue enhancement and expense control efforts, and more. All of these efforts are designed to allow us to identify and attain the desired future for the Town of Natick and its residents.

Property Tax Revenues

Trend Guideline: A decline in property tax revenues (constant dollars) is considered a warning indicator.

Notes:

Property Tax Revenues:

Property tax revenues are analyzed separately because they are the Town's primary revenue source for both operating and capital spending. Increases due to operating overrides, while enhancing the Town's ability to deliver services, must be weighed against their impact on taxpayers ability to pay.

This analysis shows that the only significant increases in constant dollars from year to year occurred when overrides were passed by Natick citizens. The good news: Property tax revenues are steady and reliable. The bad news: They do not grow faster than inflation, and only grow when citizens are willing to pay more.

Uncollected Property Taxes:

An increase in uncollected property taxes may indicate an inability by property owners to pay their taxes due to economic conditions. Additionally, as uncollected property taxes rise, liquidity decreases, resulting in less cash on hand for the Town to invest. Bond rating organizations generally consider uncollected taxes in excess of five percent as a warning trend. Natick has exceptionally strong collection rates, regardless of economic circumstances during the last decade. This is attributable to strong efforts in tax title collection and the diligence of Natick citizens to pay their taxes on time.

Town of Natick Town Reports, Report to Assessors of Certain Receipts as per M.G.L.Ch. 42, Sec. 59A., 2002-2010

State Aid:

A constant area of concern for municipalities in Massachusetts is the level of State Aid which they receive. Many mandates - funded and unfunded - come from Beacon Hill to local governments and the challenge to enforce, implement and help citizens understand them falls to the municipalities. Designed to fund a variety of local services - from education to veterans services and many things in between, intergovernmental (State) aid is an important component of the overall revenue picture. Declines in State Aid are particularly troublesome as municipalities are not capable of controlling them and can only offset them with expense reductions if the community does not have adequate reserves.

Natick, like the other 351 cities and towns throughout Massachusetts has seen declines in state aid over the course of the last decade. Major drops have occurred during economic downturns - most noticeably in 2004 and again most recently when mid-year aid cuts forced the community to make up nearly half a million dollars in aid relied upon to provide local services. The uncertainty of state aid from year-to-year (or even within a particular fiscal year) make reliance upon it for funding the operating budget always troublesome. As the tax levy grows as a percentage of the overall revenue pie, this will mitigate some of the reliance upon state aid, but have the adverse affect of forcing even more of the burden for ongoing operations onto the local taxpayer.

Notes:

Building Related Fees & Permits inclusive of all Alterations, Building, Wiring, Gas & Plumbing permits, FY 2003-2012.

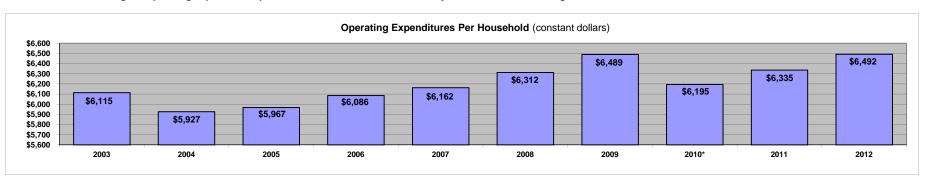

Revenues Related to Economic Growth:

Revenues related to economic growth include construction related revenues such as permit fees and new tax levy growth resulting from new construction and certain retail related revenues such as motor vehicle excise taxes. A decrease in building permit fees may be a leading indicator of smaller future increases in the tax levy. Despite the inherent nature of this indicator to fluctuate with the economy, inflation and other influences, Natick has been fortunate to have consistently maintained approximately 7% of its operating revenues throughout the last decade as those attributable to economic growth. Also favorable is that most of this economic growth has been largely attributable to non-residential development, thus creating less demand for expanded municipal services. Fortunately, the three most recent fiscal years indicate a mixed picture - that overall revenues attributible to economic growth have decreased since 2009, but may have bottomed out in FY 2011 and begun a rebound in FY 2012. Lower revenues attributible to economic growth could foreshadow lower tax levy growth in the future fiscal years. The mixed results of the last three years are why this idicator is trending marginal.

What makes this revenue trend uncertain is two-fold: 1) the large swings within categories of economic growth revenues from year-to-year are surprising even when one takes away the one-time surge in building fees and resulting in tax levy growth related to the Natick Collection development, and 2) the uncertain nature of future new or redeveloped construction projects within Natick. Positively for Natick Motor Vehicle Excise revenue has remained steady, which is unusual compared to most communities in the Commonwealth during the Great Recession.

Expenditures per Household

Trend Guideline: Increasing net operating expenditures per household, in constant dollars, may be considered a warning indicator.

Net Operating Expenditures and Transfers (constant dollars) / Households

Source: Town of Natick, Town Reports, 2002-2011 & Comptroller's FY 2012 4th Qtr GF Expenditure Reports.

Expenditures per Household:

Formula:

Increasing operating expenditures per household can indicate that the cost of providing services is outstripping taxpayer's ability to pay, especially if spending is increasing faster than household income. Increasing expenditures may also indicate that the demographics of the Town are changing, requiring increased spending in related services.

This indicator tells a mixed but unfavorable message for the Town of Natick. On the one hand, revenues have kept pace with expenses (because of the need to have a balanced budget they must.) But, in recent years, recurring revenues have been supplemented with one-time revenues in order to meet expenses. On the other hand, operating expenses in constant dollars have increased per household only 6.16% since 2003, or an average of less than 1% annually.

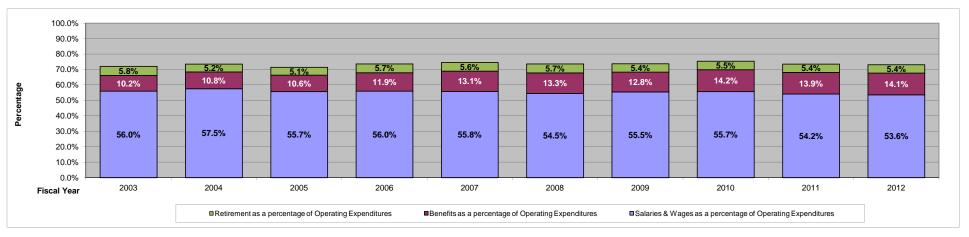

The trend within the trend worth further examining is which sections of the budget have witnessed the greatest percentage increase since 2001. As this indicator shows and Indicators I.6, I.7 and I.10 further detail, the largest increase has been within Shared Expenses and not in direct services for the community. It is important to note that FY 2012 expenditures per household (in constant dollars) are just \$3.00 more than in FY 2009.

Natick	Trend
favorable	
marginal	
unfavorable	Х

Source: Town of Natick, Town Reports, FY 2002-2010 & Comptroller's FY 2011 4th Qtr GF Expenditure Reports.

Personnel Costs:

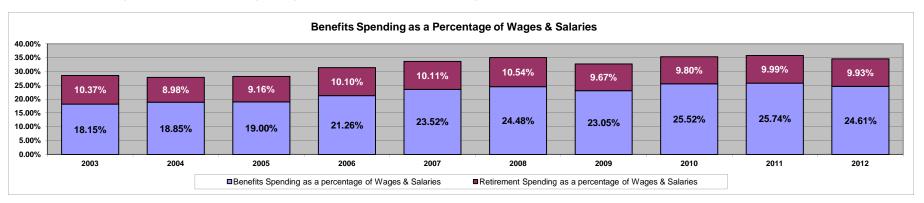

Increasing salaries and wages as a percent of operating expenditures may be an indicator of two trends: 1) First, it may point to <u>future</u> pension and health insurance costs since both of these items are related to the number and compensation level of employees. 2) Second, if salaries and wages as a percent of operating expenditures are increasing, it may be an indicator that the Town is not adequately funding its capital needs or of deferred maintenance of the Town's infrastructure.

Total labor costs have increased since 2003 by 1.1%, and the rate and level of increase has remained relatively constant. This is good for the Town as such a slow rate of increase is manageable and has allowed policymakers to adjust budgeting and goal setting with a limited impact to services. The increase over that time was in the cost of benefits. The combination of health care concessions in the last and in some current labor contracts and and overall slowing in health care cost increases in FY 2012 and FY 2013 has resulted in a drop in overall personnel costs over the last three fiscal years.

Source: Town of Natick, Town Reports, 2002-2011 & Comptroller's FY 2012 4th Qtr GF Expenditure Reports.

Employee Benefits:

Fringe benefits represent a significant and increasing share of the Town's operating costs. Further, this analysis may understate certain fringe benefits such as sick leave buy-back liabilities and vacation accruals.

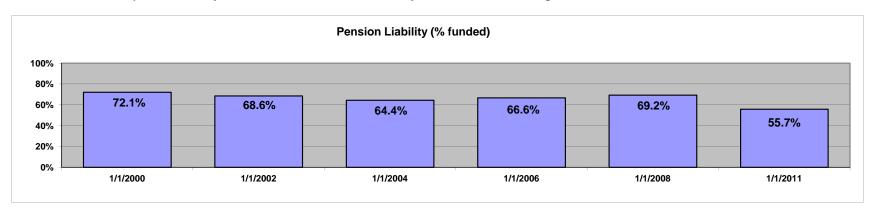

This indicator demonstrates one of the most alarming statistics witnessed during the last 10 years - growth in health care costs. Medical benefits (including all forms of health insurance), have increased nearly 85% in the last 10 years and its share as part of an employees' compensation package has increased by over 33% - from comprising 18.15% in 2003 to over 24.61% in 2012. The increase in health care costs means valuable available funds for other purposes are being spent to maintain an existing benefit. This directly impacts the amount of money available for service delivery and infrastructure maintenance, and is not sustainable.

Efforts were taken for FY 2011 to slow the pace of this increase, and FY 2012 is the first year of demonstrable data that modifications to the health care provisions of labor contracts are beginning to move in a positive direction. There is too little data, however, as of FY 2012 to project a permanent improvement in this indicator.

Pension Liability:

Formula:

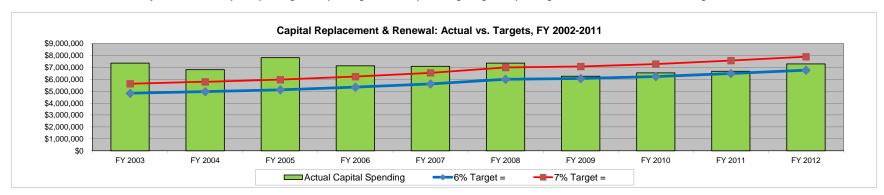

The Natick Retirement System provides pension benefits for many retired employees of the Town of Natick . Established under M.G.L. Chapter 32, the Natick Retirement System is funded via an annual appropriation at Town Meeting. As of January 1, 2011, there were 1012 participants in the Natick Retirement System - 559 active, 93 inactive and 360 retired participants and beneficiaries. Town Meeting appropriates an annual contribution to the system as determined by an actuarial study.

Natick	Trend
favorable	
marginal	
unfavorable	Х
uncertain	

Natick's overall pension liability is an area of ongoing concern. As revenues become stagnant while the assessment for the Retirement System continues to increase in order to meet state mandated funding requirements, the impact of the retirement system upon Town operations will increase. State law mandates the pension system must be fully funded by 2040. This will require that beginning in FY 2012, more money will need to be set aside to fund the retirement assessment and less will be available for operational and capital needs. How much more is still to be determined by the Natick Retirement Board.

Capital Asset & Renewal

Trend Guideline: A three or more year decline in Capital Spending from operating funds as a percentage of gross operating revenues is considered a warning indicator

Formula:	Actual Capital Spending (Cash + Debt) vs. 6%-7% Target

Capital Asset & Renewal:

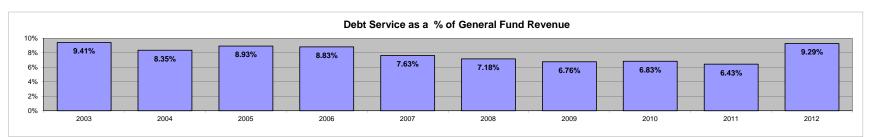

Companies of any size must maintain, renew and replace their infrastructure in a timely and cost effective manner. Municipalities are no different, and often have the daunting task of having to renew capital equipment and infrastructure with numerous other competing needs. Timely replacement of capital equipment and infrastructure benefits the community in the long-run as it increases efficiency and keeps maintenance costs lower while providing better facilities to the general public. A decline of spending on capital over a three-year period is considered a warning sign by industry standards.

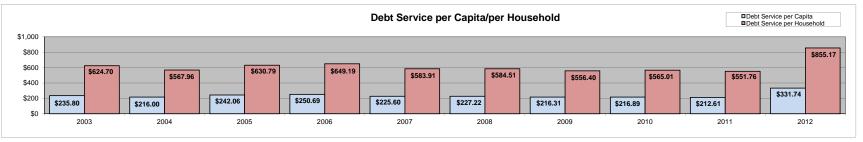

Natick	Trend
favorable	
marginal	Х
unfavorable	
uncertain	

Natick, like every municipality during the Great Recession, has seen a decrease in the amount of money dedicated to Capital spending. For several years, this indicator forbode of dangers of not spending at least 8% and ideally 10% of total revenues on annual capital renewal and replacement. This, however, was a skewed target - as it included the highly specific category of excluded debt within its targets. Taking the costs attributed to excluded debt out of the equation, a new picture develops which shows the Town has spent a recommended amount of between 6-7% of net revenues annually on capital and debt service. This amount has proven sufficient to "catch-up" on deferred capital projects, and in FY 2012 that goal was achieved. A significant reason to be positive moving forward is the policy decision to dedicate Local Option Tax revenues to Capital and Debt Service costs, thus securing a permanent funding stream with which to meet this important ongoing need.

Debt Service

Trend Guideline: Debt Service exceeding 20 percent of operating revenues is considered a warning indicator by the credit rating organizations.

Debt Service:

Debt is the chief financing tool utilized by municipalities to continually replace and maintain its capital infrastructure. As such, it is important to monitor how much debt the community has at any one point in time and determine what impact the amount of debt service has on the operating budget and the taxpayers. Credit rating agencies monitor the amount of debt a community has just like they monitor individual credit. A variety of factors, including the level of debt service/annual revenues and level of debt service/capita and per household are evaluated by credit rating agencies.

Trend
Х

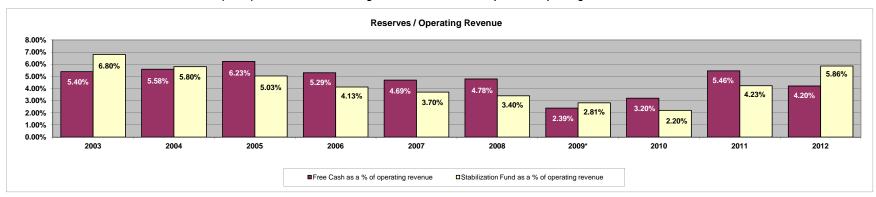

Positively for Natick, the community fares well on this indicator. Not only has debt service per capita remained well within recommended levels at between 6.5%-9.5% - debt service of 20% of operating revenues is considered a problem and 10% is considered acceptable - but decreased from FY 2006 through FY 2011. Future issuance of debt should be timed so as to minimize its impact upon both the operating budget. This can be achieved by timing new issuances with retirement of current debt service and following the Town Administrator's Recommended Financial Policies on issuing large debt projects (over \$1,000,000) outside of the tax levy.

Debt per capita grew signficantly beginning in FY 2012 when the majority of the debt for the new Natick High School and the new Community/Senior Center began to be serviced. This issuance was well timed in that it a) recieved favorable bid prices, b) lower interest rates and c) will be issued after several years of declining debt service amounts.

Reserves & Fund Balance

Trend Guideline: Declining reserves as a percentage of operating revenues is considered a warning indicator.

Comment: The Government Finance Officers Association (GFOA) recommends that undesignated fund balance be 5-15 percent of operating revenues.

Formula:				Type of Res	serve / Operati	ng Revenues				
Fiscal Year	2003	2004	2005	2006	2007	2008	2009*	2010	2011	2012

Notes:

*Denotes Fiscal Year where Proposition 2 1/2 Override was approved by voters.

Reserves & Fund Balance:

Reserves can be used by municipalities for many different purposes. Primarily, reserves are used to buffer against the need for severe reductions in service due to economic downturns, major emergencies which the community must respond to and as a sinking fund for major capital projects. Communities which maintain a Aaa bond rating (like Natick) traditionally have strong reserve positions between 8%-15% of net operating revenues.

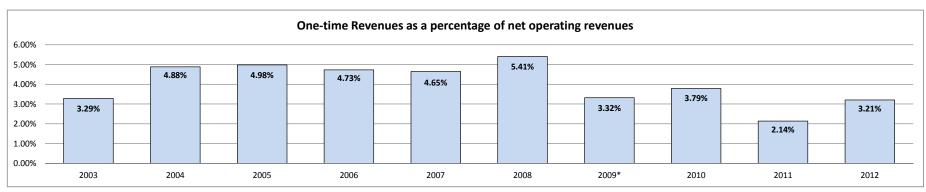

Among the most alarming of trends for the Town of Natick was the marked and steady decline of reserves over the last decade. Regardless of how the economy performed from FY 2003-2012, the Town's overall reserve position declined from FY 2009. With a combination of adherence to the Town's Financial Management Principles and prudent use of additional resources to build reserves, the Town reversed that trend for the first time in FY 2010 and made significant strides in FY 2011 and maintained that stride in FY 2012. This is a notable accomplishment, given the overall economic condition of the region and the country.

Although this increase in the Town's overall position is important, sustained progress in reversing the overall trend will be difficult. Services funded with the reliance of these reserves and one-time revenues will be difficult to maintain if the Town is to improve its reserve levels within those recommended by the Government Finance Officers Association. The recent creation of a Operational Stabilization Fund will aid in the Town's ability to maintain services when economic conditions deteriorate, but only if it can a) be adequately funded when money is available and b) policymakers resist the desire to use it other than when recommended by the Town's Financial Management Principles.

Notes:

*Denotes Fiscal Year where Proposition 2 1/2 Override was approved by voters.

Use of One-Time Revenues to Support Operations:

Municipalities in Massachusetts and throughout the United States will occasionally utilize reserves and one-time revenues to balance annual operating budgets, sustain programs in times of economic downturn, or fund a pilot program which can be further developed or cancelled in a successive year. As a general rule, however, one-time revenues should not be used to sustain ongoing operations because they exist only once and then they are depleted. Utilizing one-time revenues to fund ongoing operations puts services funded through those one-time resources at risk and is not sustainable.

Natio	k Trend
favorable	
marginal	X
unfavorable	
uncertain	

The Town of Natick utilized increased amounts of one-time revenues for most of the last decade, peaking at 5.41% of all operating revenues in FY 2008. This pattern is not sustainable. Efforts have been made to reduce that reliance, and the total amount of one-time revenues utilized for recurring purposes has been substantially lower over the course of the last four fiscal years. If one-time revenues are to be used by the Town, they should whenever possible be used for one-time expenses - i.e. Capital purchases or increasing the Town's overall reserve position. It is unlikely that in the current economic climate the Town will completely eliminate the use of one-time revenues such as Free Cash, but sources such as Overlay Surplus and the Stabilization Fund should not be relied upon for future years' operations. unless carefully planned and used for limited purposes (i.e. servicing debt).

Three-Year Projection

Executive Summary - Projections

Budget decisions that are made within a given fiscal year often have significant implications for subsequent fiscal years. The revenue and expenditure projection included within this packet is intended to facilitate discussion among community stakeholders with the hope that it will result in the identification of issues warranting further analysis as future budget cycles unfold.

Methodology

The table on the next page shows a projection of total general fund revenues and expenditure requirements for three years, FY 2013-FY 2015. Projections are calculated in the aggregate, using conservative assumptions, with the intention of giving an overall perspective on the Town's budget outlook. The projections are presented in sequence with the current year and three prior years for comparisons. It is important to emphasize that the projection is not a proposed or recommended budget. It is a tool for planning.

Revenues

Revenues are generally projected based on historical experience. On the revenue side, State Aid is projected to be level-funded in FY 2014 and FY 2015 at FY 2013 levels. This may be a bit optimistic given that state reserves have had to be drawn down in support of prior year's budgets and it is unknown what the impending cutbacks at the Federal level will have on state and municipal budgeting. Local receipts are projected to remain essentially level over the period of FY 2013 through FY 2015; in light of this year's high free cash certification, these will obviously be revisited. Free cash is forecast only to be used at a level of \$1,500,000 in FY 2014 and FY 2015 as the Town continues to move towards improved fiscal practices.

Expenses

In the operating budget, wage projections are complicated by the fact that collective bargaining agreements are not completely settled for FY 2013-2015 as of the production of this projection. On the whole, we have calculated a 4.5% increase in total expenses for the Natick Public Schools, a 10% increase for the Keefe Tech Assessment and a 2.5% increase in expenses for all municipal departments. These increases may not be sustainable into future years; it is incumbent on the Town and School administrations and elected officials to budget responsibly and identify areas for cost reduction and revenue enhancement to ensure Natick's sound financial future. Wages for all departments are projected increasing 2% annually in FY 2014 and 2015 respectively.

The greatest changes going forward continue to rest within the categories of Shared Expenses. A major emphasis of the FY 2011-2 budget cycles was the achievement of reducing the Town contribution to employee health care. The renewal of labor contracts continue to provide an ideal time for further review of existing benefit packages and adjustments. Administration is committed to achieving progress in this area moving forward. Not included in this forecast is a larger than anticipated increase in the pension assessment - (the new legal limit is 8% increase/year).

Results

These projections - for the first time in recent memory - forecast close to balanced budgets for FY 2014 and FY 2015. But the unknown factors - revenue estimates, labor contract settlements, health care costs and most critically service restorations and enhancements in both municipal and school operations - will determine just how much Natick can accommodate and provide its citizens while living within its means. It will be crucial for Town officials to continue to work together toward a financially sustainable future for the Town of Natick.

FY 2014 Budget Policy Issues

The following is a list of important policy issues which need further discussion & analysis in FY 2014.

- 1. Health Care Concessions
- 2. Collective Bargaining Agreements
- 3. Continued implementation of Town's Financial Management Principles
 - a. Adequately funding capital needs
 - b. Reduced reliance on one-time revenues & reserves to fund recurring operations
- 4. Continued exploration and implementation of cost containment measures
 - a. Coordinated delivery or sharing of services with neighboring communities
 - b. Reorganization of departmental operations
- 5. Careful restoration/enhancement of municipal operations/employees to meet citizen demand

Average Tax Bill:

This table shows the average single-family tax bill for comparable communities to Natick for FY 2012. Only single-family homes are shown as part of this comparison. As of FY 2012, Natick finds itself below average compared to the other 12 comparable communities in average tax bills.

Natick's average single family tax bill increased \$454 from FY 2011 to FY 2012. The sizeable increase is due in large part of the excluded debt costs of the new Community-Senior Center and Natick High School. The average single family tax bill for the comparable communities increased \$268 from FY 2011 to FY 2012.

Population:

Population data and trends are extremely important to review and understand for the future allocation of resources and to understand significant shifts in the community. With data provided by the Metropolitan Area Planning Commission, Natick is expected to grow in population on average about 1400 people per decade over the course of the next 25 years. These latest estimates take into account but do not completely reflect the 2010 Decennial Census.

The three interesting points to take away from this projection are: 1) Population will rise but in a very small, steady and predictable amount, thus allowing policymakers, appointed officials and taxpayers to carefully plan for future needs. 2) School age population - the 0-19 cohort is set to change very, very little in the next 20 years. This is important to correlate with estimates from the Natick Public Schools and should allow for planning of future needs for the children of Natick. 3) The growth in population is set to occur in the 60+ cohorts, with a large spike of over 4,900 individuals aged over 60 living in Natick by 2035 than do today.

It is also important to note that these populations projections are one method of calculating. The Natick Public Schools also has its own internal forecasting, and as has been shown with growth in the district this Fiscal Year, trends are defiantely NOT trending downward for the 0-19 cohort in Natick, at least not today.

Appendix D: Other Post Employment Benefits

Other Post Employment Benefits (OPEB):

GASB-45 requires that public entities begin accruing the expected future costs of OPEB (medical and life insurance) over the expected future employment period of employees, much like they do now for pension benefits.

At this point in time, GASB 45 is a requirement for *reporting*, but not for *funding*. No legal mandate from the state or federal government, akin to M.G.L. Ch. 32 requiring annual contributions to the Natick Retirement System, has been put in place or even filed in the legislature.

After conducting the actuarial, USI has determined that our total unfunded actuarial accrued liability is \$119,187,237. As a result, the Town's annual audits going forward will show a significant and growing liability, unless the Town chooses to begin setting aside funds in a restricted trust in order to put towards mitigating the liability. The 2011 Fall Annual Town allowing the Board of Selectmen Meeting

OPEB Liability Growth as a result of GASB 45	
FY 2011	
For FY 2011, the actuarial study has estimated that our total cost is: (this is a cumulation of both the normal cost of care plus the amount we need to pay to "catch-up" to make sure the liability is paid down in 30 years)	\$ 27,007,851
Less our current contributions:	\$ (3,704,594)
Total FY 2011 Year-end Outstanding Liability for OPEB:	\$ 23,303,257
FY 2012	
Beginning Outstanding Liability (from FY 2011):	\$ 23,303,257
FY 2012 estimated total cost:	\$ 11,552,723
Less our current contributions:	\$ (3,808,433)
Total FY 2012 Year-end Outstanding Liability for OPEB:	\$ 31,047,547
and so on	

and so on...

Source: A Postretirement Welfare Benefit GASB 45 Actuarial Valuation As of July 1, 2010 for: The Town of Natick. The USI Consulting Group. June 8, 2011.

to create the trust and \$221,608 was appropriated into it by the 2012 Spring Annual Town Meeting. Some communities have chosen to begin setting aside funds towards the unfunded liability without additional legal mandate or guidance from state or federal legislators. They have taken advantage of a variety of funding sources, including but not limited to redirecting Medicare Part D monies (if they receive them), appropriating additional tax levy support to a trust designed to reduce the overall liability, or using decreases in the pension assessments, if they arise.

An updated actuarial will be conducted during FY 2013.

Appendix F: Notes & Assumptions

Notes:

Actual Data - Data presented as actual for FY 2003-2011 is taken from final G/L accounting reconciliations prepared by the Town Comptroller. FY 2012 is taken from the accounting system but has not been finalized and has not been audited as of the printing of this document. Figures may change slightly.

Constant Dollars - Or "dollars adjusted for inflation" utilizes data from the U.S. Department of Labor, Bureau of Labor Statistics for the Boston-Brockton-Nashua Metropolitan Statistical Area. CPI-U data used is for the mid-year analysis, CY 2003-2012. This corresponds to the end of the Town's fiscal year. CPI-U assumes that the period of time 1982-1984 = 100.

Comparable Communities - Communities were chosen based upon similar population size, and demographic characteristics' such as equalized value/capita and household income.

Households - The number of households for the Town of Natick was determined using the Tax Recapitulation Worksheets, Worksheet LA-4, and counting all residential properties by property type (single-family - Code 101, double-family or duplex - Code 104, triplex, Code 105, etc.) and updating on an annual basis. An assumption was made for the amount of dwelling units in condominium developments.

Population - Population data used in the indicators is provided from the Department of Revenue. Projections provided in the Appendices provided from the MAPC. Both sets of figures use the 2010 U.S. Census Bureau statistics as a base and then annual or future decennial result are extrapolated from that amount.

Status of Municipal Reserves

Overlay Surplus:

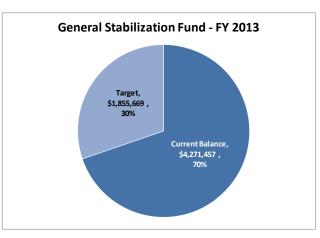

The purpose of the overlay surplus account is to fund property tax abatements and exemptions that may be granted in a particular fiscal year. Each fiscal year has an associated Overlay Reserve account; once all exemption and abatement requests for a particular fiscal year have been resolved or can be reliably predicted, the funds remaining in the Overlay Reserve may be declared by the Assessors as Overlay Surplus. Typically the Overlay Surplus is released incrementally, and is often used to fund Capital or other one-time expenses. For FY 2010, the Assessors were asked to and did release all potential Overlay Surplus from FY 2009 and all earlier years, thus limiting this funding source in future years until the reserve is replenished. No overlay surplus was used in building the FY 2011 budget. \$1,000,000 was appropriated for usage in FY 2012. No overlay surplus was used in building the FY 2013 Preliminary Budget. \$500,000 is proposed for use in FY 2014.

Stabilization Funds:

The Town of Natick, as per its adopted Financial Management Principles, maintains a portfolio of permanent reserves in the form of Stabilization Funds. Established by Town Meeting under Chapter 40, Section 5b of the Massachusetts General Laws, stabilization funds act as the Town's savings account, providing resources for one-time and limited recurring expenses when and if necessary.

The Town maintains three Stabilization Funds:

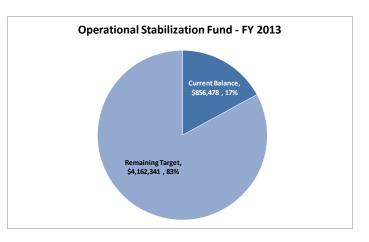

General: The National Advisory Council on State and Local Budgeting recommends that Stabilization Funds be used to address temporary cash flow shortages, emergencies, unanticipated economic downturns, and one-time opportunities. A prudent level of financial resources is recommended to protect against reducing service levels or raising taxes and fees because of temporary revenue shortfalls or unpredicted one-time expenditures. Thus, Natick more recently has appropriately used Stabilization Funds in response to what was

hoped to be a temporary downturn in state aid. Persistent and ongoing use of these funds is contrary to recommended practice. Many communities have established a target of 5% of general fund revenues for the Stabilization Fund; this target would suggest maintaining a balance of just over \$6.1 million.

	Current Balance	FY 2013 G.F. Revenues	Target	Target	Balance to target	% Raised	
			2%	5%			
General Stabilization Fund	\$4,271,457	\$ 122,542,518	\$2,450,850	\$6,127,126	\$ 1,855,669	69.71%	

Operational: An Operational Stabilization Fund should be maintained for the purpose of augmenting operations in case of sustained economic downturn and associated loss of revenues in support of operations. Sustained economic downturn will be any situation whereby State Aid and/or local receipts are significantly reduced from one-year to the next. ("Significantly" being defined as more than 5% of the total for the respective revenue category.) The target

amount of money in the Operational Stabilization Fund should be sufficient to sustain operations through a three-year period of economic downturn. This shall be equivalent to 10% of State Aid Revenues and 5% of Estimated Receipts cumulative for a three-year period.

	Current	Target - 5%	Target - 10%	Total Target	Remaining	Percentage
	Balance	of Local	of State Aid		Target	of Target
		Receipts for	for last 3			
		last 3 years	years			
Operational Stabilization Fund	\$ 856,478	\$1,521,434	\$3,497,386	\$5,018,819	\$4,162,341	17.07%

<u>Capital</u>: This was created by the Fall 2010 Annual Town Meeting and is funded through local option taxes. It is exclusively to be used for the purposes of the purpose of funding any capital-related project, or pieces of capital equipment, or debt-service payment related thereto. As resources allow, it is the intent of Town Administration to build the Operational Stabilization Fund over the coming years to prepare for the next economic downturn. The balance of the General Stabilization Fund is adequate to meet most any unforeseen or catastrophic emergency at this point in time.

The Capital Stabilization Fund already has a dedicated revenue source – local option sales taxes. These taxes are recurring annually and provide a solid base of support for funding capital projects and debt service payments.

Free Cash:

Free Cash is cyclical, as a new amount is certified by the Department of Revenue each year based upon remaining funds from operations of the previous fiscal year and actual receipts in excess of revenue estimates, with offsets applied such as unpaid property taxes and certain deficits, all as based on the Town's balance sheet as of June 30. That is, Free Cash is, to some extent, replenished at the end of each fiscal year, but the extent cannot be accurately predicted until the subject fiscal year is "closed out." The MA Department of Revenue recommends that "A community should maintain a free cash balance to provide a hedge against unforeseen expenditures and to ensure there will be an adequate reserve to prevent sharp fluctuations in the tax rate. Maintenance of an adequate free cash level is not a luxury but a necessary component of sound local fiscal management. Credit rating agencies and other members of the financial community expect municipalities to maintain free cash reserves and make judgments regarding a community's fiscal stability, in part, on the basis of free cash." One unofficial target for unappropriated Free Cash (the balances remaining after all appropriations are made from the fund during the fiscal year) is that it should not go below 1/2% of general fund revenues, or approximately \$586,117 for Natick.

The table below shows the Certified Free Cash amounts for the last 5 years:

Free Cash Balances

Fiscal Year	FY 2008	F	Y 2009	FY	2010	F	Y 2011	F'	Y 2012		FY 2013	
Effective Date	7/1/2007	7,	/1/2008	7/1	/2009	7/	/1/2010	7/	1/2011		7/1/2012	
General Fund (Free Cash)	\$ 4,784,709	\$2	2,415,060	\$3,3	327,659	\$5	,899,906	\$4,	,737,528	Ş	6,791,98	84
Water/Sewer Enterprise	\$ 682,304	\$	656,440	\$1,3	390,829	\$1	,980,622	\$2,	,386,297	Ş	849,40	04
Golf Course Enterprise	\$ 103,010	\$	97,364	\$	83,126	\$	111,897	\$	71,576	Ş	72,64	42

Finally, this table shows the planned usage of the \$6,791,984 Certified Free Cash amount.

Department: Finance

The Finance Department includes MUNIS departments 134 - Comptroller, 141 - Board of Assessors, 145 - Treasurer, and 146 - Collector of Revenue. A new overaching department - simply labeled Finance Department - needs to be created for one salary at this time. All other department budgets still should be accounted for individually and they are provided for on the ensuing four pages of this workbook.

Budget Introduction			
Section 1: Process	3-4		
Section 2: Budget Calendar	5		
Section 3: Overview	6		
Building the Budget			
Section 4: Level-Service Budget Development	7-9		
Section 5: Program Improvement Requests			
Presenting the Budget			
Section 6: Conclusion	12		

SECTION 1: PROCESS

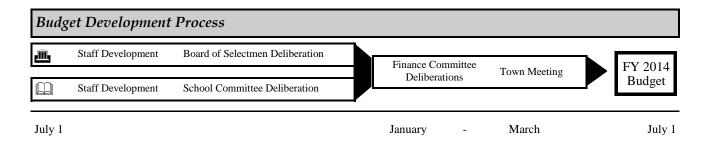

Building a budget is a lot like building a dam – it takes a lot of time, hard work, determination, the right materials and planning. Yet it all comes down to a lot of faith and hope when the water is released for the first time. In this climate of fiscal uncertainty, we all have to take care in preparing a budget because we want our product to be right the first time – both externally and internally.

External Budget Process:

The legislative body of the Town of Natick is a representative Town Meeting comprised of 180 elected Town Meeting Members. Town Meeting has the sole authority to appropriate funds for the operating budget and capital projects. The Town Administrator is required to submit a Proposed Budget to the Board of Selectmen and Finance Committee on January 1, 2013. An *Open Process* is utilized in developing the budget. Internally, input is elicited and encouraged from all staff levels. Externally more and more citizen participation is encouraged and sought after. The open process allows for greater inclusion in decision-making and in the overall development of the budget.

The process begins in the early fall with the internal budget process. Late in October, Town staff work together to develop individual Department Budget Requests that support the operations of the Town's programs and services, as well as address the needs and objectives that are identified in the Goal Setting Meeting. Department Heads will meet in December with the Town Administrator to review the budget requests and refine disparate proposals into a cohesive whole.

While the municipal staff is developing one part of the operating budget, the School Department begins a separate process for developing the operating budget of the Natick Public Schools. The Town Administrator is responsible for making budget recommendations for all Town programs, including a total School budget. The Superintendent submits his final budget request to the School Board in December.

The Capital Budget and the five-year Capital Improvement Program is just one component of the Town's Budget. The Town instituted the five-year plan to develop and maintain a healthy relationship between the operating and capital budgets. The goal of the plan is to focus on ensuring that adequate resources are available each year to meet the capital needs of the Town without overburdening the operating budget.

SECTION 1: PROCESS (Continued)

Once the Town Administrator presents her recommended budget to the Board of Selectmen and the Finance Committee on January 1, a series of hearings is held between January and March to vet the budget and allow for the Finance Committee to review and propose a series of recommendations to Town Meeting. The members of each of the major committees are involved in and help guide the decision making process from beginning to end. Through this process, the Town Administrator is able to consider the input of all of these groups when preparing the Proposed Budget.

The Finance Committee need time to review the annual budget proposal and develop their recommendations, which they are required to present at Town Meeting. Their final recommendations on financial articles is sent to Town Meeting members at least 7 days prior to the start of the Spring Annual Town Meeting in late April. It is through the Representative Town Meeting that funds are appropriated and the Town's Annual Budget is adopted.

The end result is a collaborative effort involving the Citizens, Board of Selectmen, School Committee, Finance Committee, and Town and School staff and in which the needs of the community are identified and represented. The quality of the outcome is dependent on the process.

Advise on Internal Departmental Budgeting:

Initial budget requests represent a comprehensive and careful consideration of resources needed to accomplish the mission, goals and objectives of your department. The requests must be complete and thorough in order to make it through the Town's budget process. When developing budget requests, it is important to solicit participation from all levels of your staff in order to more fully identify and address the budget needs of the department's programs and services. Each staff person brings a different perspective and expertise to the process. For departments with multiple divisions and programs/subprograms, it may be helpful to start the process with each program developing their individual budget requests. In the initial stages of the budget development, encourage your staff to include **all** of the program's budget needs and to prioritize those needs within each individual program. It is especially important this year that the development process within each department carefully reviews each program and element before making the request.

Once the initial requests have been developed, a team of staff representing the different divisions and programs of the department can be assembled to review and further prioritize the department's requests as a whole. Utilizing a team approach in which the different staffing levels, divisions, and programs are all represented enhances the quality, innovation, strategy and the scope of the Department Budget Requests.

To see the schedule for the budget process next year, look at Section 2, Critical Dates, on the next page.

SECTION 2: CRITICAL DATES***

Description of Item	Due Dates	
Calendar 2011		
[Staff] - Distribution of Materials to Departments	Mid-November 2012	
[Staff] – Department Head Goals Meeting w/ Town Administrator	Mid-November to Mid-December	
[Staff] – Return of Budget Materials to Deputy Town Administrator	December 7 th	
[TA] - Town Administrator Reviews w/Departments	December 10 th – December 21 st	
[SC] – Superintendent's Presentation of Budget	Mid-December	
[TA] – Final Preparation of Budget Submission	December 27 th -December 30 th	
Calendar 2012		
[BOS] – Presentation of Budget to Board of Selectmen	January 2 nd , 2013	
[FC] – Presentation of Budget to Finance Committee	January 3 rd	
[BOS] & [FC] – Budget Hearings	January - March	
[TA] – Submission of Capital Plan Revisions to BOS & FC	March 1 st	
Distribution of Budgets & Finance Committee Recommendations	Late March	
Town Election	Early April	
Town Meeting	Late April-May	
Begin FY 2014	July 1	

^{***}All dates and deadlines subject to revision.

SECTION 3: FY 2013 BUDGET PREPARATION

<u>OVERVIEW</u>: This budget preparation manual provides information and instructions necessary to prepare your budget requests in an accurate and timely manner. It also provides an understanding of how the individual steps taken in the development of the budget support and directly relate to the overall process.

The FY 2014 Budget Process' chief aim is to provide an organized approach to building the budget. To that end, staff will initially prepare **one budget with a series of add-ons**:

- 1) <u>A Level-Service budget***</u>: A FY 2014 budget where you provide the same level of service and positions as in FY 2013, accounting for fixed cost increases (i.e. contractual services, compensation, steps, etc.)
- 2) A Program-Improvement budget: What you need to achieve the job you believe you should be performing.

***Please note: when preparing your level-service budget, keep in mind three items:

- Remove one-time expense items from your budget proposal only include recurring costs. For example, if you had money appropriated for a one-time project, (boiler replacement, server replacement, and chaise lounge) take it out of your level-service budget. Recurring costs, (including maintenance) should be kept in.
- DO NOT INCLUDE restorations in your level-services budget! Please utilize the Program Improvement Requests (detailed in Section 5) to state the case for limited restorations in your narrative. ONLY include what you are currently providing.

Department heads will be asked to lead budget development for their particular departments. It is strongly encouraged that you to involve middle managers and any other interested employees in the budget process – you never know when they will need to know how to put a budget together.

<u>STAYING ON SCHEDULE</u>: Adhering to and meeting deadlines is essential to completing the budget on schedule. Please carefully review the list of Critical Dates on the previous page to familiarize yourself with the key meeting dates and deadlines.

Two-way communication is very important for a successful budget process. The Deputy Town Administrator will serve as the clearinghouse for all submissions and organizing of the budget. Please do not hesitate to contact Michael Walters Young with any budget questions. E-mail submissions should go to myoung@natickma.org.

SECTION 4: LEVEL-SERVICE BUDGET DEVELOPMENT

CRITICAL DATES

DEADLINE

Departments submit their workbooks & personnel sheets Week of December 3rd

<u>OVERVIEW</u>: It is through the Budget Request documents that individual departments identify their expenditure needs for the upcoming year. The information that follows in this section will assist you in preparing the FY 2014 operating budget requests for your department.

MATERIALS: This year you will receive two Excel workbooks:

- Departmental workbook including:
 - i. Mission & Goals
 - ii. Narrative Summary of the budget
 - **iii.** Budget Summary of Town Meeting Appropriations & Program Improvement Requests
 - iv. Staffing History (five-years)
 - v. Performance Indicators
 - vi. Organizational Chart
 - **vii.** Detailed pages for each major category of expense (salaries, tech & prof. services, other charges, supplies, etc.)
- Personnel Staffing Worksheets (detailing each individual person & compensation)
 PLEASE NOTE: Personnel Staffing Worksheets will be distributed AFTER budget workbooks are distributed.

The following pieces of information should go in each section:

- i. Mission & Goals
 - 1. Your Department's Mission Statement
 - 2. Your Natick 360/Department Head Goals for FY 2013 w/revisions looking ahead to FY 2014. Please review these and REPLACE them the Town Administrator will meet with each of you before you have submitted your budget presentations, so they should be ready when you submit your budget.
- ii. Narrative Summary of the budget
 - 1. This section is similar to the text of last year's budgets...look at the FY 2013 submission for guidance. Basically this is your chance to explain in narrative detail what you have accomplished and what challenges you are facing. PLEASE edit this narrative. Nothing should be the same from the previous year.
- **iii.** Budget Summary of Town Meeting Appropriations & Program Improvement Requests
 - 1. This section is automated from the other sections and does not require any input from department heads.

SECTION 4: LEVEL-SERVICE BUDGET DEVELOPMENT

iv. Staffing History (five-years)

 We want to maintain a five year history of funded positions in your department.

You also need to keep track of the total number of **bodies** in your department – a full-time/part-time count is necessary as well. This can be a total at the end of your FTE table.

v. Performance Indicators

1. This is the fourth year for Performance Indicators in the budget. The reason for this section is the same as it has been: The Town of Natick appropriates over \$110,000,000 for its operations in the General Fund alone, but in the recent past we have not been providing measures or indicators of our performance. Although the narrative is crucial to understanding how the department functions and what problems need to be addressed and opportunities need to be seized, we need to provide quantifiable and objective data which measures our performance.

The first year we established of performance indicators. These indicators, which measure workloads, reported the quantity or volume of products and services provided by the division or department. Last year we added, where applicable, efficiency indicators. Efficiency indicators measure the cost, either in terms of dollars or personnel hours per unit of output or outcome. Efficiency measures indicate how well resources are being used. This type of measure is focused on productivity and/or cost-effectiveness. (e.g. Division of the number of calls received by public safety dispatchers by the number of full-time employees is one form of efficiency measure.)

This year we need to add outcome indicators – quantifiable outcomes which you hope to achieve in the next year based upon your workload and efficiency.

Please provided data for **five (5)** fiscal years as you are able – FY 2010, 2011 and 2012, and estimate for FY 2013 and a forecast for FY 2014. I will propagate indicators for all departments, but if you have other indicators which in your professional opinion are better, more useful and that you will use in the future, by all means please supplement or change the ones I have created.

PLEASE keep in mind that performance indicators are NOT optional – you need to either use the indicators I have proposed, or provide an equivalent workload/efficiency/outcome metric.

vi. Organizational Chart

- **1.** Last year's organizational chart will be available to you for editing. Please make any changes necessary to make it current.
- **vii.** Detailed pages for each major category of expense (salaries, tech & prof. services, other charges, supplies, etc.)
 - This is where you will put your actual budget submission (numbers) and your line-by-line description of any changes to your budget. Remember,

SECTION 4: LEVEL-SERVICE BUDGET DEVELOPMENT

you are building a level-service budget. Only include appropriation requests for what you are doing currently.

OPERATING BUDGET PARAMETERS:

Budget Requests should be developed according to the parameters listed below.

- Overall Departments are to develop budgets which offer the same level of service as is currently being provided in FY 2013. This means that you will budget compensation and expenses in order that you can provide the same amount of service in FY 2014 as you are providing in FY 2013.
- **Staffing & Salaries** Please refer to the staffing worksheets distributed from the Deputy Town Administrator and the Finance Director for filling in these categories.
- **Benefits** The Comptroller's Office, in conjunction with the Town Administrator's Office & Finance Department will calculate benefit figures. Therefore, you will not need to determine or enter the cost of benefits.
- **Expenses** Expenses should be calculated after first reviewing what level of service you are providing this year and then reviewing your operations to determine any possible efficiencies.

Please e-mail myoung@natickma.org with your completed Excel packets.

SECTION 5: PROGRAM IMPROVEMENT BUDGET DEVELOPMENT

CRITICAL DATES

DEADLINE

Departments complete Program Improvement Budget Submissions Week of December 3rd

<u>OVERVIEW</u>: The last few years have been tough. We have all asked you to do the same or more with less. The result has been predictable; dedicated hard-working employees have worked to maintain the great services we provide but are stretched very, very thin. The impact? When just one person goes out sick, retires or moves on to another job, a particular aspect of operations can grind to a standstill or make the stress levels rise for everyone else. There is never a good year to ask for more resources, but we need to establish what our needs are so that Administration and Policymakers know.

So in addition to developing level-service budgets, departments will be asked to come up with proposals for adding/restoring personnel and services representative of what they perceive their needs to be. The development of a "program improvement" budget this year will consist of adding service above and beyond what the level-service budget proposes.

<u>INSTRUCTIONS</u>: To achieve this end, departments will be asked to fill out the FY 2014 Program Improvement Request Form (see below). This form will allow departments to succinctly enter the costs and rationale for their requests. Blank forms can always be obtained electronically by e-mailing the Deputy Town Administrator at myoung@natickma.org

SECTION 5: PROGRAM IMPROVEMENT BUDGET DEVELOPMENT

- □ Step 1) SAVE FILE Before entering data into this form, make sure to save it with a unique filename within your department's subfolder. Please save each supplemental request form as a separate document.
- □ Step 2) ENTER DATA IN BOX ① Fill in the departmental and accounting information in the spaces provided.

 Also, provide a descriptive name for the supplemental request with which it can be identified from a list of all requests. If your department is submitting more than one request, note the priority of this request out of all departmental requests.
- □ Step 3) ENTER DATA IN BOX ②

 (Requested Program Improvement
 Funding) Identify all costs of the request
 by object code and enter them into the
 appropriate boxes. If the costs of the
 request will be one-time only
 and discontinued after FY2014 enter
 the cost figures in the One-Time Cost
 column.
 - ☐ If the costs will be ongoing, requiring funding in FY2014 and years following, enter the cost figures in the *Ongoing Annual Cost* column.

6

- □ Some requests may include both one-time and ongoing costs. If so, note the type of cost in the appropriate column.
- □ No row should have data entered in both the *One-Time Cost* and *Ongoing Annual Cost Columns*.
- The TOTAL row and column will automatically calculate the sum of the data entered.
- □ Step 4) ENTER TEXT IN BOX ⑤ (Purpose/Description of Request) Use the space provided to describe the purpose of the request.
- □ Step 5) ENTER TEXT IN BOX ④ (Service Implication) Use the space provided to describe how the request, if approved, would affect the service level of that particular department, program, and/or element.

SECTION 6: CONCLUSION

This process will be, as all are, fraught with success and troubles. I hope that together we can work through it and continue to refine a good system that makes this budget one which adequately serves the needs of staff and the citizens of Natick.

As has become our standard, finances will be tight this year. We strive every year to achieve that necessary balance between serving our citizens, maintaining operations now and in the future and not forcing an increase in taxes. This manual outlines the developmental stages of the budget for FY 2014. It is highly likely that further refinements will necessary as the budget goes forward before Town Meeting. As needs for refinement come forward, we will effectively communicate those needs and work with Departments to provide the smoothest process possible and the best outcome for everyone in Natick.

If you have any questions, please e-mail me at myoung@natickma.org or call ext. 6404.
